

When bathtubs begin to show their age, many times owners are often tempted to replace them. Porcelain Innovations is proud to provide bathtub and tile refinishing/reglazing solutions that bring new life back to your tub and tile, at a very affordable price!

This is a less expensive alternative to tub and tile replacement. Porcelain Innovations also offers a complete restoration of kitchen cabinets and professional reglazing and refinishing of your counter tops. We can do it all in a quick, inexpensive way.

When it comes to bathtub and tile resurfacing we are the experts! Resurfacing a severely worn bathtub or refinishing tile -- Porcelain Innovations is a fast and easy way to experience bathroom remodeling, at a fraction of the cost of replacing a bathtub and tile. Refinishing can be done on: bathrooms, tile & surrounds, countertops and sinks. There is no need to replace bathtubs, tile, sinks or vanities when remodeling your bathroom. Just let us make it look like new again!

The most common reason our customers call us: is when they can no longer keep their stained/worn bathtubs clean. We can even beautify and repair your chips and scratches. Our services for bathrooms and kitchen are done both quickly and inexpensively to help your home become a masterpiece.

Our professional staff can repair almost any porcelain bathtub, fiberglass bathtub, cultured marble bathtub, or acrylic bathtub. Our bathtub resurfacing is such high quality that most people can't tell any difference between a bathtub refinished by Porcelain Innovations and a brand new bathtub. With Porcelain Innovations we take your existing porcelain tub, fiberglass tub, or acrylic tub and resurface it with a sparkling factory-like new finish that is both easy to clean and is guaranteed to last for many years!

Be environmentally conscious and resurface instead of replacing when possible! Going green by resurfacing helps to save the planet, while saving you money.
